### **Michelle Tinger**

Photography has been a passion of mine since retiring in coastal North Carolina in 2008. While I enjoy photographing many subjects, I focus mainly on wildlife and nature, particularly in the Carolinas. I just love being in the presence of the beauty created by God.

I strive to capture images that are unique, compelling, emotive, and story-telling. Sometimes, I enjoy using editing processes that allow for a more creative and artistic expression. I've been fortunate to have many of my images win contests and appear in some publications.

I believe photography is a constant journey. There are opportunities to learn something new nearly every day, with one way being by gaining inspiration from other photographers. I am honored to serve as a judge as a learning experience for myself and others.

### **Tom Piorkowski**

My Name is Tom, I am a photographer in Southport, North Carolina USA. I originally started my photography journey back in Connecticut with film and moving to digital.

My specialties include landscape, wildlife, street, architecture, real estate, concerts, any subject matter that gives the viewer joy and emotion.

Some of my work has been published for the New York City Tourist publications, Yale University, musical magazines, state and city publications.

My goal is to continue to seek photographic scenes that draw interest and capture the subject at a different perspective.

## **Mogens Hermansen**

Born and raised in Denmark. Moved to USA in 1992 to pursue my professional career. Retired in 2017 and live in Southport North Carolina right at the Atlantic Ocean.

Got into photography in the early seventies when I got my first camera a Konica T3, but quickly realized my interest and passion was more than taking family and vacation pictures and decided to switch to Nikon and have been loyal to the brand since then.

While I lived in Denmark, I became a member of Fotoklubben Focus in Silkeborg and did well in club competitions, and equal important enjoyed the camaraderie with fellow photographers and learned a lot from a group of very talented photographers.

Managing my career and raising a family took up a significant amount of time and finding time to photography was not a top priority and as such the output so to speak was limited for a period of time, but it all changed when I retired in 2017 and became member of local camera clubs in the area where we live.

And then the pandemic showed up and put everything to a halt. Bored and not knowing when to get back to “normal” I started looking into international exhibitions as an interesting way to challenge myself and get out of boredom and submitted my first images in early 2021 and surprisingly I had several images accepted in my first try and got an award, which inspired me, and the challenge it brings clearly serve as the foundation for continued improvements in the “skills” department and I am very pleased with the results during the first couple of years participating at the global scene, and plan to continue in the future.
